Corporate groups and event planners use team building activities to make their business retreats, off-site meetings, company celebrations, and work outings more fun and rewarding.

THE BENEFITS OF TEAM BUILDING

A great team building activity doesn't just offer fun—it's an opportunity to unlock collaboration, strengthen relationships, and boost team morale in a meaningful way. At Outback Team Building, we craft experiences that go beyond the typical "trust fall." Instead, we focus on engaging and innovative activities that challenge employees to work together, communicate more effectively, and learn about each other's strengths in a relaxed, enjoyable setting.

Whether you're looking for high-energy races and scavenger hunts or brainy problem-solving challenges, our events cater to all types of teams. From critical thinking exercises to entertaining experiences, each activity is designed to foster stronger bonds and spark creativity. Plus, you have the flexibility to either let our event coordinators lead the way or take the reins yourself, ensuring the experience fits seamlessly with your team's needs and preferences. With so many options, there's something for every group to enjoy, helping your team grow closer and more cohesive with every event.

TYPES OF TEAM BUILDING ACTIVITIES

- In-Person Team Building
- Self-Hosted Team Building
- Virtual Team Building

WHAT IS IN-PERSON TEAM BUILDING?

In-person team building refers to activities where your entire team is together in the same place at the same time. These activities are designed to create meaningful connections, boost morale, and encourage collaboration.

From high-energy adventures to problem-solving challenges, these hands-on experiences are tailored to help teams build trust, improve communication, and grow together in dynamic environments.

IN-PERSON TEAM BUILDING HOSTING OPTIONS

Outback Team Building offers multiple activity formats to suit different needs, preferences, and circumstances. Whether your team is in-person, hybrid, or fully remote, you'll find a solution that ensures smooth execution, maximum engagement, and flexibility. These formats help accommodate varying budgets, timelines, and event requirements, giving you full control over the experience, whether you want a professionally hosted event, a self-run activity, or something in between.

Remote-Hosted Team Building

Remote-hosted events are facilitated by an Outback event coordinator who leads the experience from a remote location. This hybrid approach works well for teams that need an expert facilitator but prefer to gather in-person. The remote host provides structure and guidance through live video feeds, helping participants stay engaged and on track throughout the activity.

Outback-Hosted Team Building

Outback-hosted activities provide a fully managed, in-person experience, with an expert event coordinator handling everything from setup to facilitation. This option is perfect for teams that want to focus entirely on participating, leaving logistics and event flow to the professionals. Whether it's a complex challenge or a fun-filled activity, the Outback team ensures the event runs seamlessly, creating a stress-free and impactful experience for everyone involved.

WHAT IS VIRTUAL TEAM BUILDING?

Virtual team building activities are designed for teams that are either remote or hybrid, meaning you might all be in different places or have a core team together in-person with remote teammates participating from elsewhere. These activities help your team to stay connected and foster collaboration and camaraderie no matter where your participants are located.

Outback's virtual solutions are designed to break down geographic barriers and keep employees engaged with interactive activities led by professional hosts or self-facilitated using our app. Whether you need a quick, fun experience or a fully managed event, these activities ensure your team stays connected and motivated from anywhere in the world.

VIRTUAL TEAM BUILDING HOSTING OPTIONS

Outback Team Building provides several virtual team building formats to help remote and hybrid teams connect, collaborate, and build stronger relationships. Each option ensures a seamless, engaging experience that caters to the specific dynamics of distributed teams, offering flexible ways to participate from anywhere. Whether you want full facilitation or prefer self-led options, Outback's virtual formats deliver fun and productive experiences designed to keep teams engaged no matter their location.

Virtually Hosted Team Building

Virtually Hosted activities feature a dedicated event host who leads the entire experience through video conferencing platforms. This option ensures participants stay engaged from start to finish, with the host managing every aspect of the event, including team coordination, instructions, and challenges. It's perfect for teams that want a polished, hands-off experience that maximizes participation and fun.

Hybrid Hosted Team Building

Hybrid Hosted activities combine the best of both worlds, catering to teams where some members participate in-person while others join remotely. Outback's experienced hosts facilitate these events by ensuring seamless interaction between onsite and remote participants. This format helps bridge the gap between physical and virtual spaces, promoting collaboration across distributed teams.

Remote-Hosted Team Building

In remote-hosted activities, a virtual host leads the event for teams entirely online, ensuring smooth coordination no matter where participants are located. The focus is on delivering an interactive, team-oriented experience without requiring participants to gather in one place. This format works well for fully remote teams or hybrid teams needing a cohesive online solution.

WHAT IS SELF-HOSTED TEAM BUILDING?

Self-hosted team building activities are ones that you run on your own, without the support of a virtual or in-person host. These activities are ideal if you're working with a more modest budget, have a little bit of time to manage the event, do well with your own team being the focal point for the activity, and feel comfortable with independent hosting options.

Our internal data shows that nearly half of our customers opt for self-hosted team building activities because they're easy, turnkey, and cost-effective while still delivering the professional and interpersonal benefits they're in search of. Many of our In-Person Team Building Activities and Virtual Team Building Activities are available in a self-hosted format.
